MANIFESTO* Hi,
My name is Kara.
I am applying for student member of council because i want to ensure that everyone is listened to.
We have all voiced our concerns to issues in everyday life but often our voices are ignored and that needs to stop. Everyone's voice is important, everyone's opinion is important and every suggestion is 100% valid.
We are all in the same boat however we all have different storms. I want to support each and every one of you through your struggles and celebrate with each and every one of you through your achievements.
We are all in this together and i want to make strong change to make every step easier.
Being a part of the student council is where decisions and choices regarding your studies, your life during university and services / support are made.
If you choose to elect me, then know that i will go to every length to make the open university an even better place, and i will ensure that all important or exciting proposals or ideas are spoken about and discussed before being implemented.
I'm not just hoping to be a part of the student council, i'm also hoping to be a friend.

PLEDGES* We shall overcome every and all obstacles together.
We can do more things together as one.
Your voice is my voice.
Always, always, always change for the better.
