

S2081_2: Nominations Form

Full Name* Sarah Pickersgill

Preferred Name* Sarah Pickersgill

MANIFESTO* I have decided to stand for election as I believe the Trustees should be represented and guided with the student's best interest at heart. As a current Postgraduate student, I understand the joys and hardships of students at every level of study and know how dedicated every one of my fellow students are to their study whilst balancing busy home and work lives. It is very important to me that students feel they can be listened to and can positively impact the way the Association operates.

I have relevant transferrable skills which I believe will enable me to be an effective and reliable trustee. In my 'day job' as retail area manager for a local hospice, I have developed skills and experience in areas such as supporting colleagues in their professional development and wellbeing, managing financial budgets and planning appropriate changes to the business while working collaboratively with other departments, all of which I can utilise in the role as Student Trustee.

If elected, I would ensure that my fellow students are at the heart of every decision the board makes. I would like to build upon the previous successes of the Association, and I am open to make any decision necessary to make a change for the better. The role of Student Trustee is a great responsibility, and I would be honoured to represent you.

PLEDGES* I pledge to fully commit to the role of Student Trustee and to always have student's best interests at heart in every decision I make. I pledge to be that I will display our values in every task I undertake as part of my role as a trustee.
